ABOUT ME

I had been working in the food technology industry as intern. I have many experiences working individually and as a team member. My principle in working is quality and safety, because the core of food technology is all about producing safe, nutritious, and high-quality food for consumers. This is food technology.

EXPERIENCE

6 months

Colombo, Western Province, Sri Lanka

Food Technologist

- “Assisted in implementing quality control and microbial safety testing, supporting R&D in optimizing fermentation and reformulating products. Contributed to improved production efficiency, extended shelf life, and consistent product quality, reducing defects and contamination risks within six months of tenure.”

SKILLS

Microbiology
biochemistry
chemical engineering
quality control
